

# Grand Designs

## Year 6 Homework Project

This term, your topic homework is to research a famous building from anywhere in the world and build a reproduction model of this building.

To accompany your project piece I would also like some information about your chosen building for example: when it was built; where it was built; who the architect who designed it was; what is it made from; interesting facts. This could be presented as:

- An informative powerpoint
- A video recording of yourself talking about your chosen building (to be brought in on a USB stick)
- Or a mood-board style presentation (see below)

Be as creative as you can whilst getting across all of the key information you have found out.

You should start this project as soon as you can and do small parts each week so that it doesn't build up. If you need any resources from school then please let me know and I get can these ready for you to take home. Here are some examples to give you some ideas:

This piece of homework is due in, in full, on Wednesday 8<sup>th</sup> February 2017.
