Financial Management Policy and Procedures

Purpose and background

The Trust receives on an annual basis a financial allocation from The Education Funding Agency ("EFA"), together with additional monies available through Education Support Grant (ESG) and direct government grants. This policy and procedures determine the framework within which the Newbury Academy Trust (NAT) conducts its finances, the delegation of responsibility and the methods of operation, so that all parties concerned are aware of their duties and responsibilities and that sound internal and financial controls are maintained in accordance with the Academies Financial Handbook. The implementation of appropriate practice and procedures will ensure the best use of funds available to enhance the education of the NAT's children and students.

The operation of the NAT's school fund is determined by a separate policy and set of rules, but is however also subject to the same principles as set out here.

Policy objectives

The NAT adopts, will comply with, and ensure that staff are made aware of as required, the regulations and guidelines as published by the EFA in the Financial Handbook. The NAT will also comply with the EFA, Companies House, SORP and Audit Commission regulations and guidelines for budget management, and the spending and receipt of monies, including GAG and direct government grants. It will operate in accordance with the requirements and standards laid down in the Academies Financial Handbook, the DfE, EFA and the Auditors.

The Directors will set an annual budget for income and expenditure. It will publish, as required, annual statements relating to the quality of the Trust's internal controls and best value achieved in the use of income and expenditure.

The Directors have delegated to the Executive Headteacher the management of the budget and the virement of funds (see the delegation appendix 1 below) and will take due account of the advice given by the Executive Headteacher in respect of financial matters. The signing of cheques and other bank instructions is delegated to trust staff in line with appendix 1. The Directors note and approve the Executive Headteacher's allocation of financial duties to staff so as best to achieve separation to ensure probity, and that shadowing of duties occurs to provide continuity in the event of absence.

When setting the budget the Directors shall consider the aims and objectives of the schools within the Trust and their School Development Plans (SDP) and ensure that the budget and financial processes of the schools within the Trust support and reflect these as far as possible.

In setting the budget, the Directors will take due account of the need to resource the management and administration of the Trust's finances and to ensure, through regular review, that staff resource and competence is sufficient, and is supported through appropriate development and training

All material budgetary decisions will be communicated between all relevant and interested Trust staff and the Directors on a regular and timely basis, to ensure that the financial

context of the schools is understood and that necessary actions are implemented. This policy is available to staff from the Finance Office.

The NAT has in place rules for the procurement of goods and services to obtain best value from the resources available (see appendices below). A statement of best value is incorporated in the published annual accounts by the NAT.

Finance staff are given clear guidance to ensure that effective and robust financial and accounting procedures are adhered to (see appendices below).

The NAT has in place procedures for the recording of assets to a value over £1,000.00.

All Directors, Governors and those staff with financial responsibilities will declare any pecuniary or personal interest annually through the Register of Business interests maintained by the NAT. Directors, Governors and other attendees will be required to declare any such interest relating to any meeting agenda item at the start of that meeting.

No indemnity of any sort may be given to the benefit of a third party.

Appendix 1

DELEGATION AND THE MANAGEMENT AND VIREMENT OF FUNDS

Subject to the terms of this policy and its appendices, the Directors delegate to the Executive Headteacher (or in his/her absence the Senior Deputy Headteacher) authority to make purchases, decide upon quotations received and enter into financial commitments, income-generating activity and to vire monies within the set annual budget. In doing so it will authorise as necessary the lists of authorising school staff and their appropriate limits of authority provided to the EFA. The Executive Headteacher may delegate the aspects of day-to-day administration to the Finance Manager, Headteacher or Deputy Headteachers.

The Directors will review the school budget at least twice a year, in line with its remit, and agree any action where appropriate in relation to (a) budget variances, anticipated expenditure and income, and (b) any significant virements made or anticipated where, in both cases, the amount is greater than £100,000. Below this level the Executive Headteacher has full authority to agree budget variances and virements without reference to the Directors. Virement will be subject to any 'ring-fencing' restrictions.

Authorisation is given for the Executive Headteacher, associate Headteacher and nominated deputy Headteacher and the Finance Manager to sign cheques and other instructions to the school's bank account. Two signatories shall always be required.

THE PROCUREMENT OF GOODS AND SERVICES

1 Placement of orders

A formal order on paper or electronically by email to finance@trinity.newburyacademytrust.org shall be sent to procure all supplies and services in each case except in certain specific circumstances. These are stated later in this policy.

2 Choice of supplier

- a) In all cases any purchase or service contract must comply with Health & Safety and EC regulations where applicable.
- b) The principles of obtaining 'best value' will apply and in particular:
 - i) For supplies and services with a total contractual value below £5,000 the school may select one supplier without obtaining competitive quotations. Where a sequence of small orders is likely to be placed with one supplier a check of their pricing against competitors should be made annually.
 - ii) For supplies and services with a total contractual value between £5,000 and £50,000 a minimum of three quotations shall be obtained, except where the nature of the purchase and/or the range of suppliers and/or the timescale precludes this, in which case this will be brought to the attention of the Executive Headteacher for consideration and approval and the reason for this shall be documented with the order. Quotations will be reviewed by and a decision to order made by the Executive Headteacher or a member of staff with his delegated authority. Internet and catalogue quotations should be suitably documented for future reference.
 - iii) For supplies and services with a total contractual value of over £50,000 the nature of the contract requires additional procedures, including a formal tender mechanism. The Trust will comply with the DFE's Contract Rules of

procedure. The Directors will be advised in each case and have oversight of the procurement process.

- iv) The most cost beneficial quotation will normally be accepted and if not, best value reasons for accepting a more expensive quote will be documented with the order.
